

Marvin M104

Elegance is the only outfit

'True elegance is unobtrusive.' Far from the extravagance and dictates of fashion, the M104 distinguishes itself by its discretion and natural class – a power reserve, a date. By its very sleekness, the M104 dresses a man in refined luxury.

A dream body

The curves created by the combination of the polished-satin finished case, whether in steel, PVD pink gold, are sensual to the horns. Timeless yet classical, discrete and modern, the M104 seduces through its ideal proportions and perfect shape.

A refined and resistant skin

The matt leather strap in black or ebony, sleek and supple, sits harmoniously with the dials, enhancing the contrast with the lines of the case.

A pure and untiring heart

A Swiss quality movement beats discretely through an open back case. Its balance, grafted with Marvin crown red, triggers emotion with every second counted.

A cultivated and distinguished spirit

The supreme sophistication and finesse of the M104 is evident in its detail. Its faceted hands contain blue Luminova and the generous form of the hour markers increases the refined appearance of the second hand. The date and the power reserve sit in perfect harmony on the dial. The gracious and definite curves of the power reserve include a touch of red, Marvin's signature colour.

A unique and charming personality

The red colour at eight o'clock, an applied logo, a raised sapphire glass, the creators' stamp on the left-side panel of the case – the many distinguishing features of the Marvin watch collection.

Always immaculate, the M104 symbolises elegance in its most simple form and is the only item of clothing a man needs. Everything else is optional!

Marvin M104

Technical description

Movement	Swiss automatic ETA 2897
Rubies	21
