

## NEW TIME, NEW CODES

### Marvin M108 "ORIGIN" COLLECTION

"Original sin": the sin that marks all human beings as a result of Adam's first act of disobedience.

*Origin*, an evocative name for a collection inspired by horological history. It features a distinctive and enduring aesthetic appeal. Marvin presents a new line infused with a highly personal design. Dynamic and endowed with a look that goes through time.

From the purity of black and white to luminous blue and orange colours to light up the passing hours. And for original personalities, Marvin offers a choice of an all-black model that suits them so well.

*New Time new codes...* Marvin remains loyal to an approach that questions the past while reinterpreting it in a modern way. The large-sized numerals are as up-to-date as ever. No detail has been neglected by Marvin: its luminescent Superluminova ensures the constant readability of the giant numerals and the matching hands; the large window opens up to ease the reading of the date. The brand enhances this timeless classic with a progressive design. The singularity of a rubber strap with a safety folding clasp completes it. An array of innovations to please the eyes, the heart and the mind.

All four models are fitted with a self-winding movement ensuring high quality. Anyone can treat their wrist to an *Origin* thanks to its unbelievably reasonable prices.

Bringing alive a traditional and yet original line based on the powerfully expressive nature of the models is the very essence of the *New Time New Codes* signature.

Produced in the finest watchmaking workshops and powered by a Swiss made self-winding Sellita SW200 movement, *Origin* is water-resistant to 50 metres and guaranteed for two years.
