

### Limited-Edition Marvin MALTON 160

Paying homage to its 160<sup>th</sup> anniversary, Marvin drew inspiration from the great strength of spirit of its elegant, timeless watchmaking codes in order to create the MALTON 160 collection. It is a collection of refined, pure architecture that draws its roots from the brand's history.

Four separate movements for four MALTON 160 watches: a regulator model, a power-reserve model, a three-hand model with date and a model with large date and small seconds.

***Three Collectors' Boxed Sets limited to 8 copies***

The four watches in the round MALTON 160 collection come in limited editions presented in an individual boxed set. The boxed sets have each been given the name of one of the three kings; BALTHAZAR (BALTHASAR), MELCHIOR, and GASPARD (CASPAR). Three kings who celebrate the advent of a new spirit in the great tradition of sharing, travel and adventure.

Each of the three boxed sets has its own identity: BALTHAZAR, with watches with white dials, *Clou de Paris* motif and blued hands; MELCHIOR, with models with black dials in carbon fibre; and GASPARD, the dials of which, in black carbon, are highlighted with highly dynamic yellow accents.

**Reflecting true watchmaking values, Marvin watches are crafted with great care** dedicated to the choice of materials and finishes, and come with self-winding or quartz movements. All the models have several characteristics in common: the hallmark of the founders, Marc & Emmanuel Didisheim, a three-point crown engraved on the crowns and buckles as well as an interchangeable strap bordered with red.
